Gulf Industry Fair 2016

Welcome to the Gulf Industry Fair 2016. We thank you for exhibiting at the show and are delighted that you are an integral part of this successful event.

This exhibitor manual contains important information about all aspects of the exhibition including buildup and breakdown schedule, exhibition rules and regulations and support services as well as contact details, important deadlines and order forms to assist you to get the maximum benefit from your participation at the show.

It is important that you read this manual thoroughly to familiarize yourself with all the exhibitor rules, details and the services available. We would recommend that you nominate one person as the Exhibition Coordinator in charge of your stand preparation. Your co-coordinator can liaise with the organizers and contractors when necessary and ensure prompt and accurate completion of all requirements and order forms. Please take a copy of each completed order form for your records and submit the original to the contact address indicated on each order form.

The manual is divided into sections and is simply designed for easy reference:

- Section 1 : Exhibition Time Table**
- Section 2 : Freight & transportation of Exhibits**
- Section 3 : Stand Construction & Exhibition Services**
- Section 4 : Supplementary and General Stand Services**
- Section 5 : Travel and Accommodation**
- Section 6 : Free Promotion and Publicity**
- Section 7 : Admission to the Exhibition**
- Section 8 : General Terms and conditions**

A list of approved contractors is provided. Order Forms need to be provided by the deadline dates otherwise we cannot guarantee to provide services for forms received after the deadlines.

We are dedicated to your success at this event. Should you have any further queries relating to your participation at the exhibition that cannot be found in this manual, please contact Tel: +973 17299123 Fax: +973 17299155 and email: info@hilalce.com

We look forward to a very successful show.

Section 3: Stand Construction & Exhibition Services

3.2 Shell Scheme Package

The official stand fitting contractor will be responsible for erecting the shell scheme stands booked by exhibitors who do not wish to build their own stand. The shell scheme package includes: (per 9 sqm stand)

- Wall panels
- Needle Punch carpet flooring
- Fascia board with cut-out standard lettering
- 13 amp single phase power point
- 40W fluorescent tubes installed at the back of the fascia board (x2)
- Wooden pylon with illuminated front at the perimeter of the booth
- Square table
- Meeting chairs (x2)
- System lockable cabinet
- Wastepaper basket

Exhibitors booking this package will have their company name and stand number featured on their fascia in English only. **Complete Order Form 3.**

3.3 Space Only Exhibitors

Building an exhibition stand is like building a business premises, you have to comply with local building regulations, make sure that you are ok for health and safety, have sufficient electricity supply and most importantly also make sure that it is built by the deadline date. Here are the basic rules that you need to comply with

1. Exhibitors building their own stands must submit a detailed drawing of their stand to the Organizers by 25th December 2015 for inspection and **written approval.**

Section 3: Stand Construction & Exhibition Services

2. Exhibitors employing stand fitting contractors must advise the Organisers the name of the contractor including their contact details (**Order Form 4**). Stand fitting contractors must take an appropriate Public Liability Insurance policy; otherwise this liability will be the responsibility of the Exhibitor. The Organisers will not provide on-site services or labor for the erection of stands and displays unless prior arrangements have been made.
3. Exhibitors building their own stands cannot start building the stand without the Organisers' written Approval. Without this approval, you could involve extensive alterations to your stands at your own cost.
4. The **maximum** stand height allowed is 3.75 meters.
5. Any design for a structure exceeding 2.5 metres in height next to a shell scheme Stand must be submitted to the Organisers for approval at least six weeks in advance. If approved, the structure will be restricted to a distance of one meter away from the dividing walls of the neighboring stands.
6. Suspension of part or all of any structure from the hall roof structure is not permitted.
7. **Space reserved by Exhibitor of a full "island stand" with 4 sides open will be required to maintain 4 sides open access to public view. Any wall enclosing the stand should not exceed 50% of the length or width of the size of the space purchased. .**

EXAMPLES OF ACCEPTABLE SPACE STAND CONFIGURATIONS/DESIGNS

IF YOU ARE IN DOUBT ABOUT YOUR PROPOSED DESIGN, PLEASE CONTACT THE ORGANIZERS.

Section 3: Stand Construction & Exhibition Services

8. Detailed drawings of the stand including perspective, full dimensions, sides/front/ back elevations, plan structural and materials information should be sent to:
Hilal Conferences and Exhibitions
PO Box 1100, Manama, Bahrain

Alternatively, drawings can be sent via email as a pdf or jpeg attachment to info@hilalce.com or rohan.steven@trade Arabia.net.

9. The Organisers reserve the right to reject a design that is found not conforming to the building rules and regulations and which may affect the other exhibitors' stands in any way.
10. Where no drawings and full calculations have been submitted and approved, the stands may be subjected to onsite engineering inspection and may be subjected to adjustments on site, the cost of which will be borne by the exhibitor.
11. All materials used in stand construction must be properly fireproofed in accordance with local Regulations. Normal international safety standards apply.
12. The Stand Contractor must supply their own Distribution Boxes for connection of electricity.

3.4 Electrical Power Supply

The electrical power supply in Bahrain is 240 volts (50 cycles) single phase, and 415 volts (50 cycles) three-phase.

The socket type utilised in Bahrain is the UK standard three-pin-plug socket.

All exhibitors building their own stands (**Space Only Contracts**) have already been provided as part of the space only package - **30 amp single phase / 15 amps 3 phase**.

If you require additional electricity supply apart from what is included in the package, then complete **Order Form 6** and submit within the deadline. It is important for exhibitors to inform the organisers of their power supply requirements for heavy equipment and machinery.

3.5 Floor Surface and Loading

The floor of the exhibition hall has a smooth acrylic paint finish concrete surface and no form of fixing to the floor is permitted. Any damage caused to the floor surface or any part of the exhibition centre will be charged to the exhibitor.

The maximum permitted weight of exhibits is 1,785 kg/m² or 365 lbs/ft². This maximum weight shall not be exceeded in any circumstances. Pointed or dynamic loads will not be allowed in the exhibition centre unless prior approval from the Organisers is obtained.

Section 3: Stand Construction & Exhibition Services

3.6 Height and Access of Exhibits

3.6.1 Maximum Height of Exhibits

In Organiser's shell scheme stands - 2.50 meters

In Exhibitor's own stand – 3.75 meters

3.6.2 Access

The largest goods entrance door to the exhibition hall measures 3m wide x 3.6m high.

3.7 Compressed Air

Exhibitors requiring compressed air should apply to the Organisers as early as possible for availability and costs.

3.8 Hazardous Items

3.8.1 General

Any exhibit or process which generates noxious or toxic fumes, exhaust or smoke shall be so arranged as to have an effective exhaust system properly connected to the fumes exhaust system of the exhibition hall or to the outside atmosphere and be sited pursuant to approved locations. Full details of the exhibit or process and proposed exhaust system shall be submitted to the Organisers for prior approval one month before the first day of the exhibition.

3.8.2 Internal Combustion Engines

The use of compressors, sprayers, auto trucks and similar plants powered by internal combustion engines is prohibited during the exhibition.

3.8.3 Radioactive Materials

It is prohibited to display equipment of any kind that incorporates radioactive materials.

3.9 Machinery & Equipment

All machinery and other apparatus intended to be operated during the exhibition must be fitted with guards or other means of protection subject to the approval and the satisfaction of the Organisers to ensure public safety. The machinery and equipment shall only be demonstrated or operated by persons authorised by the exhibitor and shall not be left running in the absence of such persons. The Organisers shall be advised of such authorisation.

Welding, metal cutting, grinding and brazing may only take place within the hall if a written consent has been obtained in advance from the Organisers. Machinery shown as part of a display should be guarded to ensure that members of the public are kept at a safe distance.

The use of un-insulated catenaries or un-insulated pole low voltage lighting systems is prohibited. Electrical equipment shall be guarded to prevent accidental contact with live metal, moving parts, live terminals and accidental short circuiting.

Section 3: Stand Construction & Exhibition Services

Exhibitors are not permitted, and shall not permit others, to connect or otherwise interfere with the electrical, gas, water, or other fittings of the halls and shall not introduce into or use in the halls any supplementary plant for the generation or supply of electricity or for artificial lighting or for generating power. It is prohibited to take electrical supplies from the sockets located in the exhibition hall walls.

3.10 Working Exhibits

Moving machinery should be fitted with safety devices which must not be removed when the machines are in operation and are connected to the power source.

All pressure vessels or equipment under pressure must conform to their safety standards and regulations.

The Organisers reserve the right to determine the acceptable sound level and extent of the demonstration for working exhibits and audio-visual presentations in the event of complaint from other exhibitors.

Exhibitors are requested to keep noise levels down in order not to interfere with normal conversation on neighboring stands.

3.11 Relocation of Stands

The Organisers reserve the right to relocate exhibitors' stand areas, without liability, should it be deemed necessary for whatever reason. Where possible the Organisers will endeavor to advise the Exhibitor of any such relocation in writing prior to the Exhibition build-up.

3.12 Stand Boundaries

Exhibitors must not place any display material, dividing wall, exhibit or any part of their stand construction beyond their contracted space boundary. Any such encroachment of space will be deemed chargeable by the exhibition organizers to the exhibitor.

Exhibitors must ensure that all gangways and adjoining stands are not blocked during the build-up and breakdown so as not to hamper the movement of other exhibitors and freight

3.13 Open Frontages

Solid runs of stand walls along gangway edges should be avoided - walls should either have natural breaks, glazed panels, or other such features at a minimum of 4 meter intervals. Each stand will be assessed individually when plans are submitted to ensure that there are adequate breaks, and in the case of dispute, the Organisers' decision is always final.

Section 3: Stand Construction & Exhibition Services

3.14 Platform Floors

Bahrain International Exhibition Centre requires that all platform floors have adequate wheelchair access. All corners must be rounded off, and the use of metallic/aluminum edging strip is prohibited.

3.15 Aisles and Gangways

Exhibitors must ensure that all gangways adjoining the stand are not blocked during build up and breakdown to a degree which inhibits other exhibitors and freight. The exhibitor is also responsible for ensuring that no product or display is placed in the aisle adjacent to his stand during the open hours of the exhibition.

No part of the stand or exhibit including fascia, signs, lighting, corner posts or other fittings shall project into, or overhang any gangway or adjacent stands, obscure any fire or exit signs, or be suspended from the roof, without prior approval from the Organisers. Additionally, any display or other items attached must not project over the frontage of space taken by another exhibitor.

3.16 Carpet and Carpet Tape

All scheme stands are carpeted in grey. Space only stands are not carpeted and it is the exhibitor's responsibility to lay an appropriate floor covering.

All carpet tape should be industry standard and should not leave a residue on the hall floor after use. All tape must be removed during break-down and **charges for non-removal and damages will be levied to all relevant contractors and exhibitors.**

3.17 Fabrics and Decorative Finishings

All textile materials used for decorative finishes to stands:

- Shall be able to pass a test for flammability or for surface spread of flame
- Shall be fixed taught or in tight pleats to a solid backing
- Shall be secured at floor level
- Shall not ignite when subject to a flame after 10 seconds
- Shall not have an afterglow when subjected to a heat source for 10 seconds

Any paint used should be water based and the use of paint sprayers in the halls is not permitted.

3.18 Restrictions

It is strictly prohibited to affix nails, hooks, tacks, screws, adhesives paint or other similar items to the floor, walls, ceilings or other parts of the premises.

3.19 Banners

Banners may only be suspended above the exhibitors own stand and will be subject to the Organisers' and BIEC engineer's approval. For every 8 sqm, an installation charge of BHD 40 is charged. Any banner size exceeding 8 sqm will be charged additionally at BD 8 per

Section 3: Stand Construction & Exhibition Services

sqm. All Banners must be supplied ready for hanging. Exhibitors must supply banners with hanging support, loops and casting.

All banners must be delivered to the organizer's office on Saturday, 6 February 2016 by 8:30 am as installation begins by 9:00 am of the same day. Banners delivered after the dead line will not be installed.

3.20 Distribution of Promotional Materials

Exhibitors are not permitted to distribute promotional materials anywhere in the exhibition Hall (including the car park) except from their stands. In addition, affixing any advertising material anywhere in the hall is prohibited except on the exhibitor's stand.

3.21 Alteration of Display Materials/Exhibits

Exhibitors providing their own displays must ensure that these are completely finished before the show opens. Exhibitors are not permitted to alter their displays or exhibits during the open periods of the show. Such alterations should be carried out when the exhibition is closed to visitors and only with permission from the Organisers.

Section 4: Supplementary & General Stand Services
